

APTV-positive

BUY

- APTV rose above its 2022, 10-month, and 9-month downtrend lines in November. APTV was down over 55% from its 2013 peak; November 2021 highs to its October 2022 lows. The zoom chart reveals that APTV has established a pattern of higher lows=uptrend. The weekly chart shows that Wednesday's close is near long-term support.
- RRG analysis shows that APTV has moved comfortably into the Leading quadrant, but we also know that it is 45% below its 2021 peak, and its 14-day RSI is only 44.
