

CRL, OMF – positive

BUY

- CRL rose above its steep 12-month downtrend after falling 60% from September 2021 to September 2022. The zoom chart reveals that CRL has established a pattern of higher lows since its nadir at the end of September. The weekly chart shows that CRL left long-term support at 175-179 unviolated as it bounced from its 12-month lows.

RRG analysis shows that CRL has moved out of the Lagging quadrant, into the Improving quadrant and is headed for the Leading quadrant. CRL was one of the Top 20 in this week's TPA-RRG report. (See the RRG below).
