

This week's top 10 Buys and top 10 Sells 1/1/24

Click on the image below for the full report including all charts.

Note:

It is important to note that for the first time since TPA has created its Top 10 and Bottom 10 report, there are not 10 stocks that satisfy the technical requirements to be Sells. This situation points to 2 aspects of this market:

- This is a very bullish market
- This is a very overbought market

These are high conviction stocks that TPA has recommended recently. They are technically positive for Buys or negative for Sells and trading at or near their investment action levels.
