Trade Alert - All Models

As noted yesterday, we are using earnings weakness and other price opportunities to continue building out the **Dividend Equity Model.** Today, we are adding another 1/3rd of target position sizes to Apple, Abbvie, Google, Goldman Sachs, JP Morgan, and Coca-Cola.

In the Equity and ETF models we are shifting duration in bond portfolios by reducing our large weighting in 1-3 year T-Bills (SHY) to 7-10 year Treasury bonds (IEF.) With the Federal Reserve cutting rates this year, and the recent pullback providing an entry point, we are shifting our duration mildly.

Dividend Equity Model

- Increasing current holds by the same amount as the original buys.
 - Apple (AAPL), Abbvie (ABBV), Google (GOOG), Goldman Sachs (GS), JP Morgan (JPM), and Coca-Cola (KO).

Equity And ETF Models

- Sell 5% of the iShares 1-3 Year Treasury Bill ETF (SHY)
- Initiate a 5% position in the iShares 7-10 Year Treasury Bond ETF (IEF)
